

MIGHTY MITE BOAT CART INSTRUCTIONS

ASSEMBLY

1. Your frame should be assembled for you.
2. Slip on the tire, valve stem facing out.
3. Insert the cotter pin into the hole at the end of the axel. Flip O-ring over the end of the axel to lock tire in place.
4. Loop the supplied straps around the bends in the frame. **IMPORTANT:** Mount straps on the side of the frame that will be the front when pulled.

USE

1. Unfold the cart frame.
2. Place under the center of your kayak or canoe.
3. **IMPORTANT:** It doesn't matter which side the straps are attached to, but you **MUST** make sure the straps are in **FRONT** of the frame **WHEN PULLED**.
4. Once to the water, you can take off the wheels and fold the frame for storage in the boat.

CARE

1. The tires should be inflated to approximately 30 psi. Lower pressure can be used for use in soft sand.

CAUTION: INFLATE WHEELS WITH MANUAL PUMP ONLY. OVER-INFLATION OF WHEELS CAN RESULT IN SEVERE INJURY.

2. If the cart is used in or around salt water, rinse it off to prevent corrosion.
3. Do not over tighten the straps when connecting the boat to the cart; this can damage your boat.

Important: Strap must be on forward facing bar.

WARNING

Due to the fact that Seattle Sports does not have control over how this boat cart is used or how it is attached to a boat, Seattle Sports disclaims any and all liability for damage or injury that might occur as a result of the improper use of this product.
