

FIREWATER MULTI-BOTTLE

LIGHTING:

- Press the green button to control the light.
- Switch modes: High -> Low -> Strobe -> Off

CHARGING:

- Charging by solar: Ensure solar panel is facing towards sun, turn light off and let sit. Charging time varies on exposure to sun.
- Charging by USB: Plug included micro USB cord into micro USB port, charge indicator will be red. When light is fully charged, the indicator will turn green.

TO CHARGE:

- Slide band up slightly to reveal micro USB port
- Open micro USB port and insert cord into adapter.

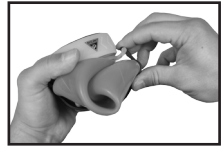

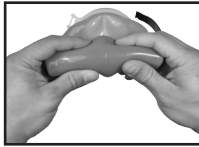

CAUTION:

- Do not point at eyes directly.
- In order to prolong the lifespan of the battery, charge it at least once every six months.
- Do not store this product in a place where temperature or humidity is high.
- When charged by solar, the bottle/lid will be hot.
- Do not wipe the bottle with a corrosive liquid.
- Do not use this product in temperatures over 60 °C

FOLDING INSTRUCTIONS:

- Unscrew lid to let air out of bottle and unclip one side of handle.
- Roll bottle up towards handle until bottom of bottle touches handle clip.
- Bring handle from one side of bottle under folded bottle and secure to opposite side.
